

**IDENTITY THEFT PREVENTION AND DETECTION
AND RED FLAGS RULE COMPLIANCE**

Lincoln Eye & Laser Institute, Inc. and Omega Surgery Centers, LLC
1500 S. 48th Street Lincoln, NE 68506
Phone- 402-483-4448 Fax- 402-483-4750

Policy: It is the policy of Lincoln Eye & Laser Institute and Omega Surgery Centers to follow all federal and state laws and reporting requirements regarding identity theft. Specifically, this policy outlines how Lincoln Eye & Laser Institute and Omega Surgery Centers will (1) identify, (2) detect and (3) respond to “red flags.” A “red flag” as defined by this policy includes a pattern, practice, or specific account or record activity that indicates possibly identity theft.

It is the policy of Lincoln Eye & Laser Institute and Omega Surgery Centers that this Identity theft prevention and detection and Red Flags Rule compliance program is approved by Dr. Staci Hanus, Privacy Officer as of August 1, 2013, and that the policy is reviewed and approved no less than annually.

It is the policy of Lincoln Eye & Laser Institute and Omega Surgery Centers that Dr. Staci Hanus is assigned the responsibility of implementing and maintaining the Red Flags Rule requirements. Furthermore, it is the policy of Lincoln Eye & Laser Institute and Omega Surgery Centers that this individual will be provided sufficient resources and authority to fulfill these responsibilities. At a minimum, it is the policy of Lincoln Eye & Laser Institute and Omega Surgery Centers that there will be one individual or job description designated as the privacy official.

It is the policy of Lincoln Eye & Laser Institute and Omega Surgery Centers that, pursuant to the existing HIPAA Security Rule, appropriate physical, administrative and technical safeguards will be in place to reasonably safeguard health information and sensitive information related to patient identity from any intentional or unintentional use or disclosure.

It is the policy of Lincoln Eye & Laser Institute and Omega Surgery Centers that its business associates must be contractually bound to protect sensitive patient information to the same degree as set forth in this policy. It is also the policy of Lincoln Eye & Laser Institute and Omega Surgery Centers that business associates who violate their agreement will be dealt with first by an attempt to correct the problem, and if that fails by termination of the agreement and discontinuation of services by the business associate.

It is the policy of Lincoln Eye & Laser Institute and Omega Surgery Centers that all members of our workforce have been trained by the May 1, 2009 compliance date on the policies and procedure governing compliance with the Red Flags Rule. It is also the policy of Lincoln Eye & Laser Institute and Omega Surgery Centers that new members of our workforce receive training on these matters within a reasonable time after they have joined the workforce. It is the policy of Lincoln Eye & Laser Institute and Omega Surgery Centers to provide training should any policy or procedure related to the Red Flags Rule materially change. This training will be provided within a reasonable time after the policy or procedure materially changes. Furthermore, it is the policy of Lincoln Eye & Laser Institute and Omega Surgery Centers that training will be documented, indicating participants, date and subject matter.

Procedures

I. Identify red flags. In the course of caring for patients, Lincoln Eye & Laser Institute and Omega Surgery Centers may encounter inconsistent or suspicious documents, information or activity that may signal identity theft. Lincoln Eye & Laser Institute and Omega Surgery Centers identifies the following as potential red flags, and this policy includes procedures describing how to detect and respond to these red flags below:

1. A complaint or question from a patient based on a patient’s receipt of:
 - A bill for another individual;
 - A bill for a product or service that the patient denies receiving;
 - A bill from a health care provider that the patient never patronized; or
 - A notice of insurance benefits (or explanation of benefits) for health care services never received.
2. A complaint or question from a patient about the receipt of a collection notice from a bill collector.
3. A patient or health insurer report that coverage for legitimate hospital stays is denied because insurance benefits have been depleted or a lifetime cap has been reached.
4. A complaint or question from a patient about information added to a credit report by a health care provider or health insurer.
5. A dispute of a bill by a patient who claims to be the victim of any type of identity theft.
6. A patient who has an insurance number but never produces an insurance card or other physical documentation of insurance.
7. A notice or inquiry from an insurance fraud investigator for a private health insurer or a law enforcement agency, including but not limited to a Medicare or Medicaid fraud agency.

II. Detect red flags. Lincoln Eye & Laser Institute and Omega Surgery Centers practice staff will be alert for discrepancies in documents and patient information that suggest risk of identity theft or fraud. Lincoln Eye & Laser Institute and Omega Surgery Centers will verify patient identity, address and insurance coverage at the time of patient registration/check-in.

Procedure:

1. When a patient calls to request an appointment, the patient will be asked to bring the following items:
 - Driver's license or other photo ID;
 - Current health insurance card; and
 - Utility bill or other correspondences showing current residence if the photo ID does not show the patient's current address. If the patient is a minor, the patient's parent or guardian should bring the information listed above.
2. When the patient arrives for the appointment, the patient will be asked to produce the information listed above. **This requirement may be waived for patients who have visited the practice within the last six months.**
3. If the patient has not completed the registration form within the last six months, registration staff will verify current information on file and, if appropriate, update the information.
4. Staff should be alert for the possibility of identity theft in the following situations:
 - The photograph on the driver's license or other photo ID submitted by the patient does not resemble the patient.
 - The patient submits a driver's license, insurance card, or other identifying information that appears to be altered or forged.
 - Information on one form of identification the patient submitted is inconsistent with information on another form of identification or with information already in the practice's records.
 - An address or telephone number is discovered to be incorrect, non-existent or fictitious.
 - The patient fails to provide identifying information or documents.
 - The patient's signature does not match a signature in the practice's records.
 - The Social Security number or other identifying information the patient provided is the same as identifying information in the practice's records provided by another individual, or the Social Security number is invalid.

III. Respond to Red Flags. If an employee of Lincoln Eye & Laser Institute or Omega Surgery Centers detects fraudulent activity or if a patient claims to be a victim of identity theft, Lincoln Eye & Laser Institute and Omega Surgery Centers will respond to and investigate the situation. If the fraudulent activity involves protected health information (PHI) covered under the HIPAA security standards, Lincoln Eye & Laser Institute and Omega Centers will also apply its existing HIPAA security policies and procedures to the response.

Procedure:

If potentially fraudulent activity (a red flag) is detected by an employee of Lincoln Eye & Laser Institute or Omega Surgery Centers:

1. The employee should gather all documentation and report the incident to his or her immediate supervisor or Dr. Staci Hanus, Privacy Officer.
2. The supervisor or Dr. Staci Hanus, will determine whether the activity is fraudulent or authentic.
3. If the activity is determined to be fraudulent, then Lincoln Eye & Laser Institute or Omega Surgery Centers should take immediate action. Actions may include:
 - Cancel the transaction;
 - Notify appropriate law enforcement;
 - Notify the affected patient;
 - Notify the affected physician(s); and
 - Assess impact to the practice.

If a patient claims to be a victim of identity theft;

1. The patient should be encouraged to file a police report for identity theft if he/she has not done so already.
2. The patient should be encouraged to complete the ID Theft Affidavit developed by the FTC, along with the supporting documentation.
3. Lincoln Eye & Laser Institute and Omega Surgery Centers will compare the patient's documentation with personal information in the practice's records.
4. If following investigation, it appears that the patient has been a victim of identity theft, Lincoln Eye & Laser Institute and Omega Surgery Centers will promptly consider what further remedial act/notifications may be needed under the circumstances.
5. The physician will review the affected patient's medical record to confirm whether documentation was made in the patient's medical record that resulted in inaccurate information in the record. If inaccuracies due to identity theft exist, a notation should be made in the record to indicate identity theft.
6. The practice medical records staff will determine whether any other records and/or ancillary service providers are linked to inaccurate information. Any additional files containing information relevant to identity theft will be removed and appropriate action taken. The patient is responsible for contacting ancillary service providers.
7. If following investigation, it does not appear that the patient has been a victim of identity theft, Lincoln Eye & Laser Institute and Omega Surgery Centers will take whatever action it deem appropriate.
